

DON'T BE a VICTIM of PASSIVE AGGRESSIVE ABUSE!

FACT: The Gay Day of Silence is an organized attempt to silence opposition to the GLBT Lifestyle. GLBT Students are being used and targeted by GLBT Adults to Promote a lifestyle that is scientifically proven to be both physically and psychologically unhealthy. The fact that there are GLBT Students is Proof that the plan is working!

GLBT people at one time were known to be mentally ill. Then the Mentally Ill GLBT People decided to work for change. Instead of helping to understand the basis for their mental illness, they sought positions of influence to make their sickness acceptable, but they are still suffering from mental illness which is both harmful to themselves and to society. They have used positions of influence to **Bully** law makers, judges, teachers, doctors, psychologists, social workers, and others. When the **Bullying** becomes obvious, events like the **Day of Silence** is used. Students who recognize the mentally unstable nature of GLBT people are Bullied Using Passive Aggressive Measures.

Don't be a Bully and don't be Bullied!
